Play

HAGS®

Inspiring all generations

An aerial photograph of a vibrant, modern playground. The play area is divided into sections with different colored safety surfacing: bright green, blue, and yellow. On the left, there is a large wooden play structure with multiple levels, slides, and climbing nets. In the center, a circular metal climbing frame with concentric rings is visible. To the right, there's a red circular platform with a smaller climbing structure inside. Various other equipment like a red circular platform, a blue circular platform, and a red circular platform are scattered throughout. Several children are seen playing on the equipment. The background shows dense green trees and foliage, with shadows cast onto the play area. The overall scene is bright and cheerful, emphasizing outdoor play.

**At HAGS, we all love the outdoors.
This shared love is what makes us committed
to creating amazing outdoor spaces that
everyone can enjoy.**

See you tomorrow!

There's something profound in saying "See you tomorrow!". Nothing grand or loud. Just the warmth of knowing someone will be there again - like a trusted partner, a loving parent, or a close friend.

It's a promise shared over dinner, texted on the way home, or whispered before sleep. Someone is there and will keep showing up. That's HAGS. We believe in inspiring all generations, but inspiration only blooms when people feel seen - when their needs, aspirations, and potential are recognised.

A photograph of three young children with blonde hair lying in a hammock, laughing joyfully. The child on the left is wearing a light-colored sweater and jeans. The child in the middle is wearing a dark blue shirt and jeans. The child on the right is wearing a light blue shirt and jeans. They are all wearing sneakers. The background is a blurred outdoor setting with trees and a fence. The image has a dark, semi-transparent overlay.

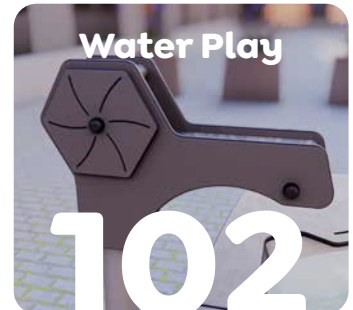

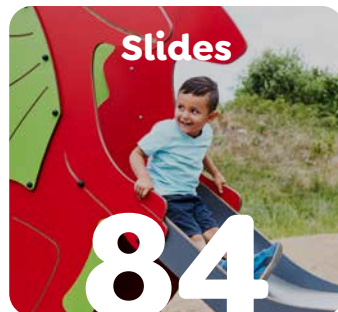

That's how we create outdoor spaces that spark imagination, welcome connection, and give people a place to belong. After all, there's something profoundly beautiful in creating a brighter tomorrow - together.

We build play spaces with intention – places where every child feels welcome, included, and able to explore at their own pace. Our products are made to last, with carefully chosen materials and thoughtful design that supports communities for years to come. Because a brighter tomorrow isn't just imagined – it's created, together.

Modular Play Systems

Freestanding Play Equipment

**Don't scrap,
renew!**

Thanks to the modular design of UniMini and UniPlay, you don't need to replace the entire play structure when it shows signs of wear. Instead, you can simply replace the most frequently used parts.

Fruit Shop

A colorful and interactive playground panel designed to resemble a charming fruit shop where children can engage in imaginative role playing.

Puzzle Shapes Table

This interactive panel features a puzzle based shape and color matching activity.

UniMini Accessories

HAGS UniMini offers a wide variety of games and play components. Shown here are some of the standard unit options, most of which can be swapped or added to existing units.

UniMini accessories are an easy way to increase play value and introduce new play elements to any unit. These components allow sites to tailor the experience to different age groups, abilities, and themes, ensuring children stay engaged for longer. They can help create richer, more varied play experiences that suit any playground layout.

Cooker Corner

The Cooker Corner resembles a stovetop, allowing children to engage in imaginative play.

Dashboard

This play panel mimics a car dashboard with a steering wheel and a gear shift.

Spinner Maze

Guide the ball through the maze to the other side by spinning the panel.

Picture Puzzle

A Picture Roll Panel where children spin rollers to align and reveal a complete image.

Spin & Stretch

Place your hands and feet on colored items, following instructions given by the spinning wheel.

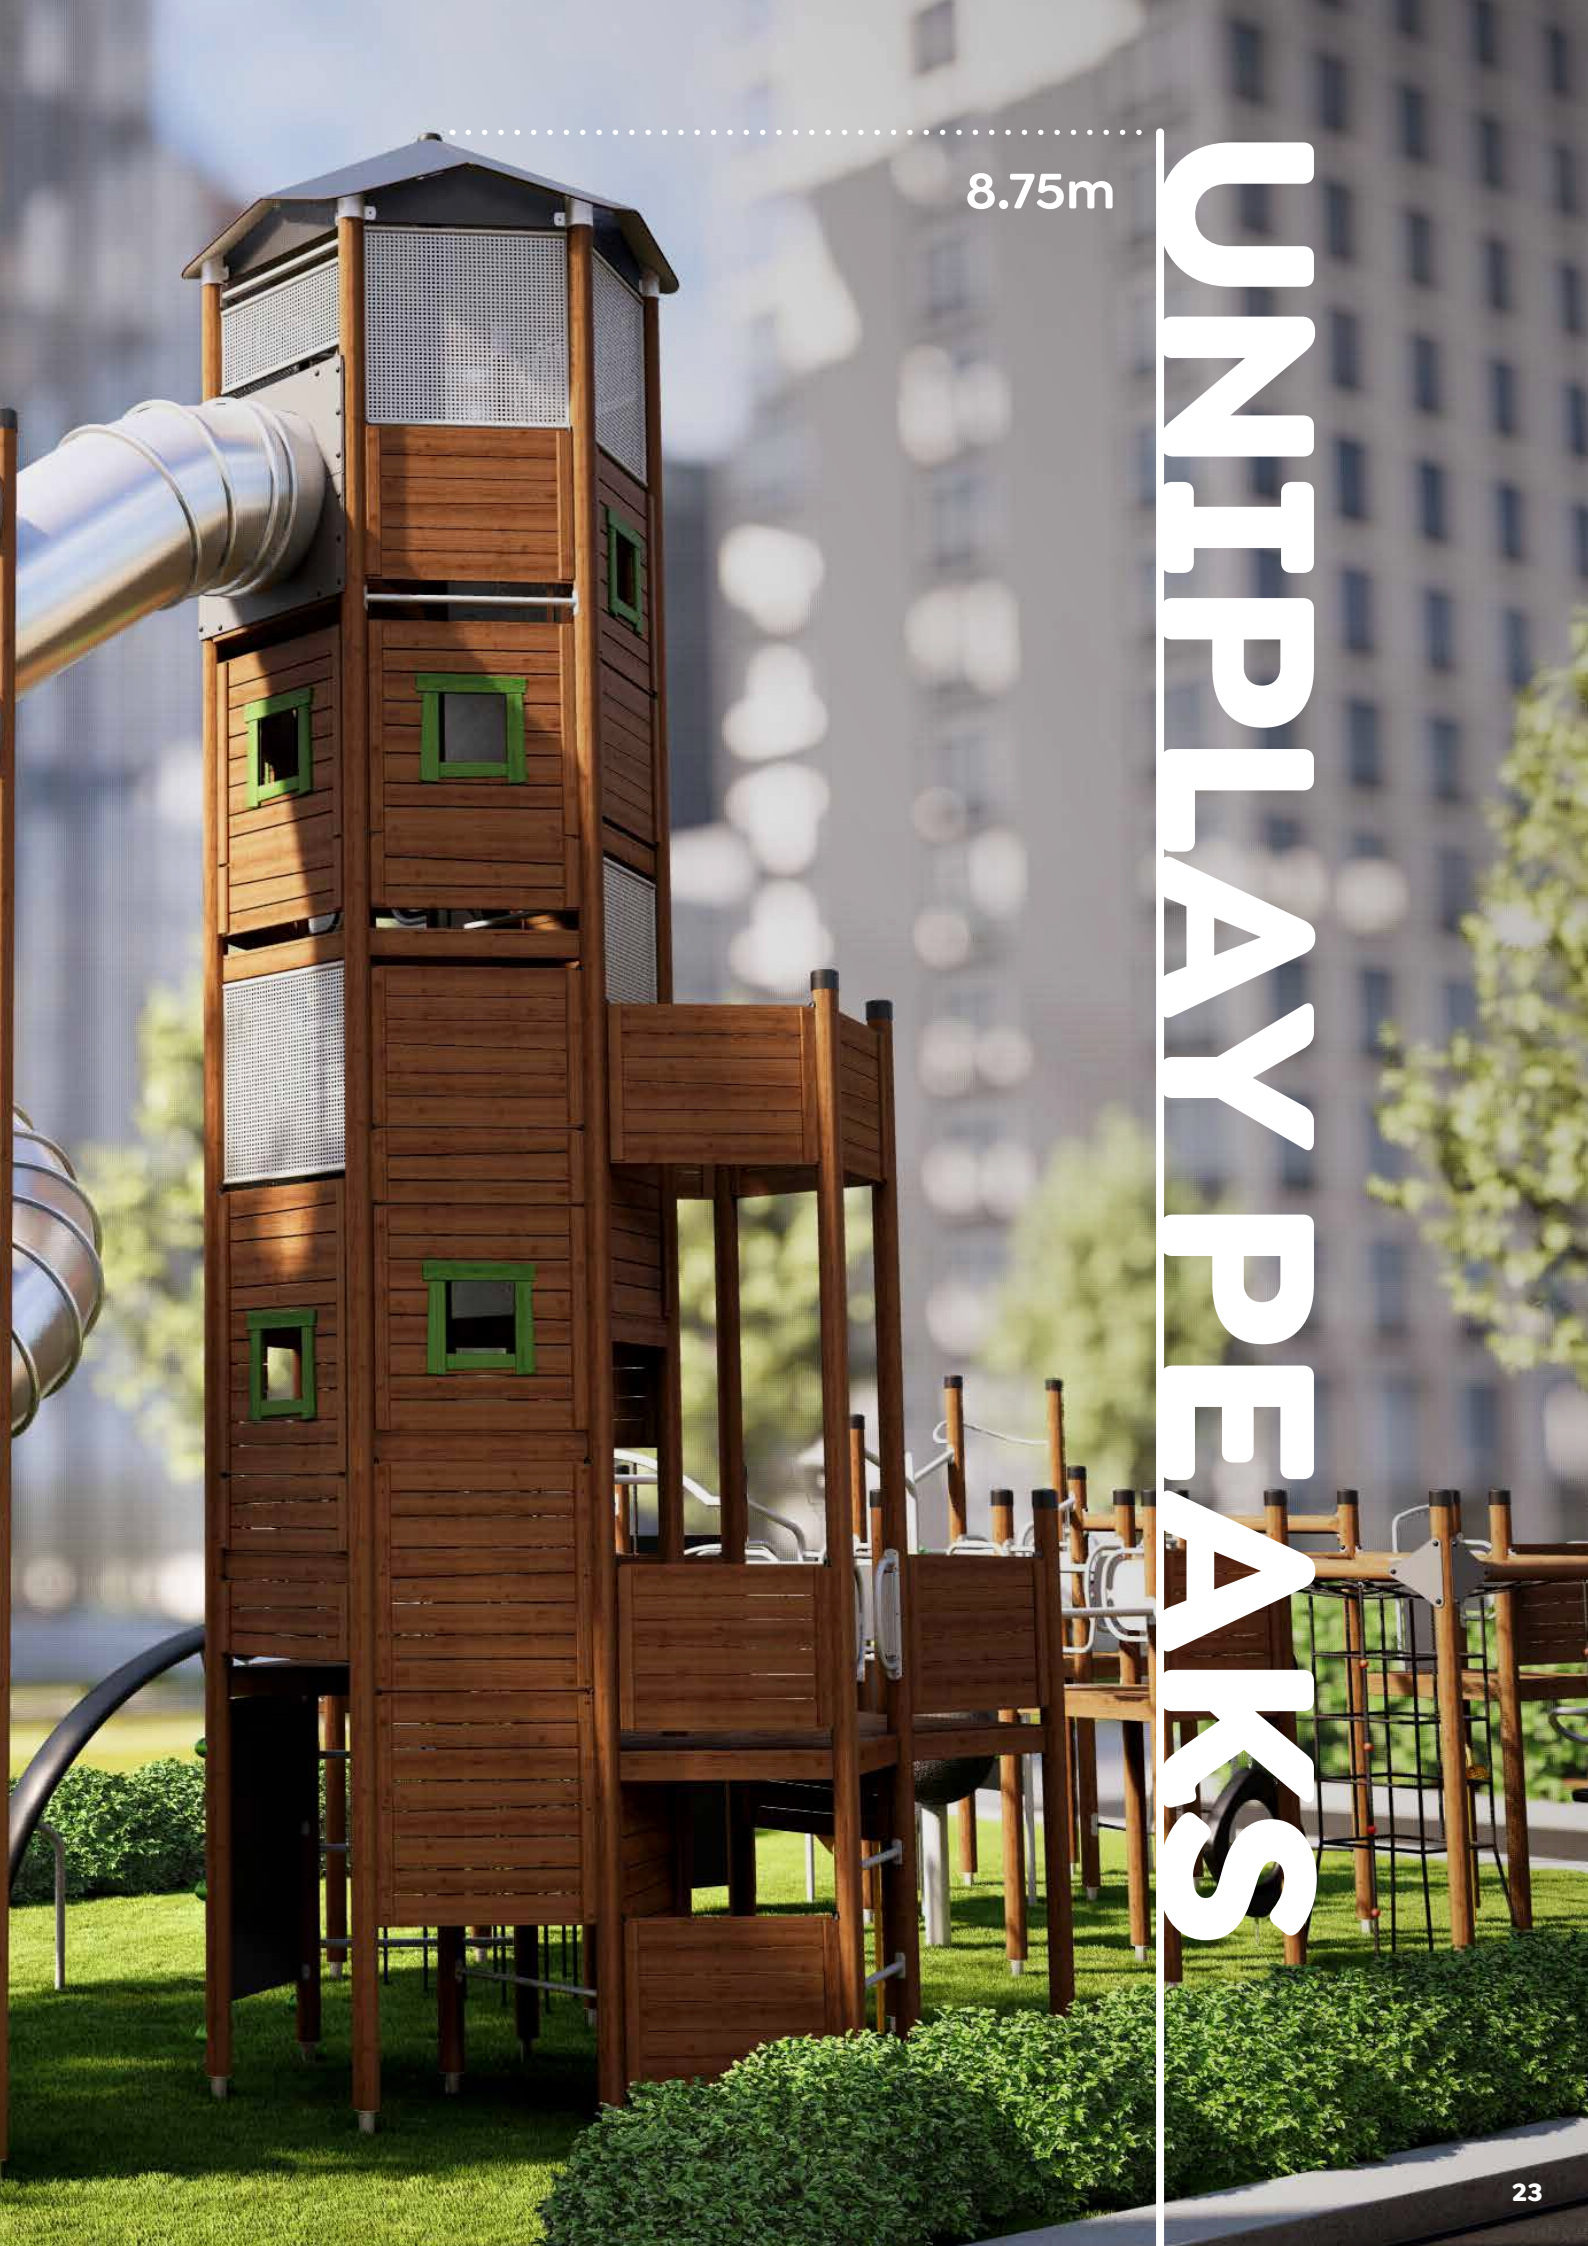

UniPlay

UniPlay offers a wide selection of ready-made play units designed for children aged 5+, providing varied levels of challenge suitable for diverse abilities. With an extensive range of standard configurations, it's easy to choose a solution that fits your space and requirements.

The UniPlay system is also fully modular, allowing layouts to be adapted, extended or refreshed over time. With a wide choice of components—from timber and steel to HPL panels—UniPlay can evolve as needs change, offering long-term flexibility and the opportunity to update or expand as your space evolves.

HAGS®

Inspiring all generations

About HAGS

HAGS has been designing, manufacturing, installing and servicing commercial recreational equipment for over 75 years. As an integral part of the global leader PlayPower Inc, the business supplies Play, Sport and Fitness, and Park and Urban furniture around the world.

Our brand pillars

Quality

HAGS brings family and friends together in spaces that challenge young minds and welcome old hands. We use our knowledge to educate through play. We create spaces that make people want to move. We develop play equipment, sports equipment and park and urban furniture that encourages all ages to enjoy the great outdoors. There's only one word for it. Quality.

Innovation

Sweden is the home of innovation. Our Scandinavian DNA means clean lines and functional design is all part of our heritage and drives our innovation in play, sport and recreation. Being modularity experts we can creatively deliver exactly what our customers want. Flexible, insightful and never square.

Sustainability

Solving problems comes naturally. We know the future of our planet starts with childhood development which is why our products are sustainably sourced and suit all ages and abilities. Let's inspire young people to be active outdoors, to cherish their environment and to protect our outside spaces for generations to come.

Service

We're here for you. We mean it. HAGS isn't just about providing great customer service every day. The team believes in a culture that supports all; from colleagues to customers to the communities it serves. The expertise, the application of knowledge and years of experience is wrapped up in care. We care deeply about what we say, what we do and how we look.

Inclusion

We believe everyone should have an equal opportunity to enjoy outdoor recreational equipment. When creating our products, we always consider those with physical and mental differences so that we can provide our customers with inclusive facilities that support development.

Play Pyramid

The HAGS Play Pyramid is founded on years of international experience and insights from leading child development experts.

It ensures maximum developmental benefits and provides an intuitive framework for designers, specifiers, and buyers to create inclusive, accessible play spaces for all children.

At the base of the HAGS Play Pyramid lies a foundation in play development areas. From these areas, play experiences grow, branching out in various directions.

As these experiences evolve, they pass through different play enablers, each enhancing and enriching the play journey.

Ultimately, the benefits of play are shared widely, reaching many users and creating a vast, inclusive landscape of play. This approach ensures that play is accessible and beneficial to children of all abilities, fostering an environment of joy, growth, and inclusion.

HAGS®

In collaboration with

**FUNDamentally
Children...**

One step at a time

Sustainability has become a crucial topic in the climate changes we are currently facing. Creating a sustainable future is embedded into our mission to transform our business and create long-term, profitable growth without impacting the environment.

By building on the 3 sustainability pillars of environmental, social, economical and involving customers, employees, and stakeholders, we have developed a framework to define the principles that will underpin all our sustainability efforts.

Naturally, transparency will be a core component for HAGS going forward as the sustainability space becomes increasingly crowded, therefore, we have taken the step to incorporate the Global Reporting Initiative (GRI) standards into our sustainability efforts to enhance our reporting in the future.

Maintain respect

we believe in

Safety first

Safety also means sustainability. All our product development is based on international research and European safety standards. The German Technischer Überwachungs-Verein (TÜV) has the world's most comprehensive and well-functioning testing and approval procedure. That's why we can proudly say that all play equipment from HAGS has been approved by TÜV.

Product Designers

At HAGS, we proudly carry forward the legacy of Scandinavian design, where the perfect balance of form and function creates timeless products. Rooted in Swedish craftsmanship and innovation, our designs are now infused

with a continental twist, blending tradition with modern aesthetics to meet the needs of diverse communities around the world.

Collaborating closely with renowned Scandinavian designers, we strive to achieve solutions where form and function work in perfect harmony, making our creations not just aesthetically pleasing but also practical and long-lasting. Today, HAGS products are found in environments worldwide, uniting communities through thoughtful, enduring design.

Stellan Svensson

Stellan Svensson, a **Product Designer** at HAGS for over a decade, pioneers modular, sustainable, and adaptable designs that embrace circular principles. With expertise in engineering and industrial design, he creates functional, aesthetically pleasing, and future-ready products, ensuring longevity, flexibility, and innovation in outdoor play solutions.

Disa Danevad

Disa Danevad, an industrial designer from Sweden, joined HAGS in 2017 after consulting in engineering and design. She blends function with aesthetics to create fun, accessible products. Passionate about sustainability and inclusion, she champions “Play for All.” As **Innovation and Design Manager**, she drives imaginative, inclusive, sustainable play solutions.

Carol Alcaide

Carol Alcaide, a Mallorca-based **Product Designer**, is part of HAGS’ Global Design Team, creating engaging, functional play products. Combining creativity with practicality, her work reflects a passion for thoughtful design. Inspired by Mallorca’s vibrant culture, Carol brings fresh perspectives, continuously pushing the boundaries of innovation in outdoor play.

Quality

Since 1948, quality has been central to HAGS. We create reliable, stylish, and long-lasting products that are accessible to everyone.

Through advanced technology, testing, and strict inspections, our playground equipment meets the highest safety and performance standards, ensuring fun and stimulating play for all.

TÜV

TÜV (Technischer Überwachungsverein) is a network of independent organizations providing testing, inspection, certification, and quality assurance worldwide. Originally from Germany, TÜV is recognized for ensuring compliance with safety, quality, and environmental standards. In Europe, industry standards are set by CEN (Centre of European Norms) and adopted by 34 member countries and beyond.

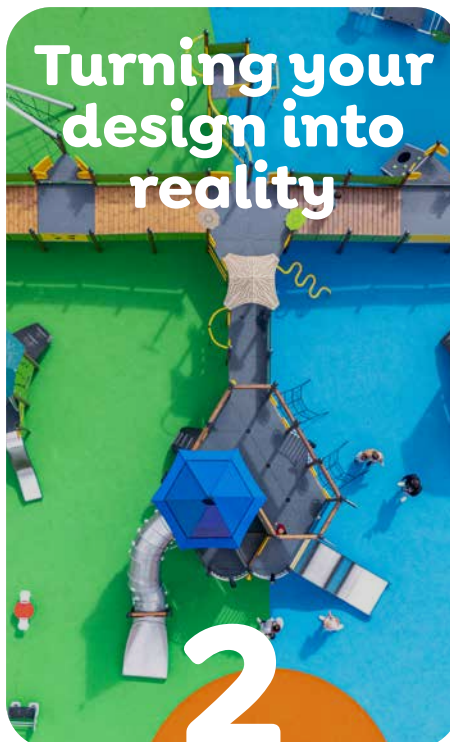

IPEMA

IPEMA (International Play Equipment Manufacturers Association) promotes playground safety through proper design, construction, and maintenance. Their certification program verifies compliance with ASTM and CSA standards, providing independent assurance of safety. In the U.S., industry standards are set by ASTM International and are recognized globally.

Blast off!

A playground inspired by space Rymdlekan, which translates to “The Space Playground”, features a playful and imaginative space theme that captures children’s curiosity and sense of wonder. From rocket-shaped play structures to planetary design elements, the playground invites young explorers to embark on intergalactic adventures.

Rymdlekan is a thoughtfully designed, accessible playground that welcomes both children and adults of all ages and abilities. The layout prioritizes inclusion, with smooth asphalt pathways that make navigation easy for everyone, including those using wheelchairs or strollers.

RYMDLEKAN, SWEDEN

A jungle adventure

The monkeys are loose...

A grand jungle adventure awaits in the heart of Gelsenkirchen at the Jungle Playground in Steinfurthhof!

Using the versatile modular systems of UniPlay and UniMini, HAGS shaped a lively jungle-themed environment designed to inspire imagination and active play.

The play area features engaging structures and equipment for children of all ages and abilities, creating an inclusive space where everyone can explore and enjoy time together.

GELSENKIRCHEN, GERMANY

Play for all

Aberdeen City Council embarked on a mission to transform Hazlehead Park's play area into a flagship inclusive play destination. The park, divided into four themed sections, caters to different age groups and abilities, ensuring a highly inclusive environment.

Key features include a 12.5m high "Giant Redwood" tower and bespoke jungle themed play units. The "Inclusive Village," developed with input from Sense Scotland, offers accessible items, musical elements, and quiet spaces. Hazlehead playground now stands as one of the most inclusive playparks in Scotland, offering dynamic play experiences for children aged 1 to 12.
